UserTesting

## RELEVANT EXPERIENCE

---

### **VF Corporation, Remote – UX Researcher**

March 2022 - December 2022

Conducted research to find industry best practices and supporting them with market research and user testing to make data supported design decisions and collaborating cross functionally with IX/Visual design teams for leading VF brands such as Vans, Timberland and The Northface.

Recent Project:

1.5 Platform Migration - focused on brand agnostic research and low-fi designs, discovered best practices for e-commerce flows and conducting market research and testing. Migrating leading brands from WCS to Salesforce Commerce Cloud.

### **IOT Greens, Remote – UX Designer**

March 2021 - November 2021

Coordinated directly with COO of a cannabis compliance startup to develop branding and revamp web design with improved information architecture. Consulted with clients building their own products/brand by doing naming exercises, brand development, and market strategy.

### **The Incubator, Remote – UX Consultant**

October 2020

Delivered a design package using Agile Methodology, consisted heavily on research and visual designs focused on reorganizing the website navigation structure with a high fidelity prototype that highlighted the multicultural aesthetic and content the social media website plans on providing its users. Worked in a team of 4 during a 4 week sprint.
